

# ELEVATOR SPRING TRITICALE

## Take Your Annual Forage to the Top

Elevator is a spring triticale selected for yield, quality, palatability and disease resistance. It has excellent feed value when used alone or in mixtures with silage peas, and is guaranteed to deliver more milk production. Elevator is ideal for silage, grazing or green feed hay production.

### Key Characteristics

- Medium Maturity
- Medium to Tall Height
- Excellent Vigor
- Lodging Resistance
- Reduced Awn

### Disease Rating

TRAIT	RATING
Leaf Rust	R
Stem Rust	R
Common Bunt	R/MR
Fusarium Headblight	MR
