

TALL FESCUE

Take the lead with Fastlane

Accelerate into next level turf quality with Fastlane tall fescue and never look back. Fastlane has demonstrated exceptional turf quality across most regions and was consistently in the top 25% of all NTEP tested products in the US Midwest, Northeast, Transition Zone and Southeast states. It has consistently shown top of the page performance under high maintenance management, as well as above average tolerance to traffic and shade stress.

Fastlane is quick to establish producing dense turf quality through all growing periods. It has an eye-catching, dark green color and fine leaf texture that will satisfy even the most discerning turf professional. Varietal durability is supported by outstanding brown patch and strong gray leaf spot resistance. Step into the Fastlane to take the lead.

Features

Premium turf quality

Excels under high maintenance

Wide adaptability across growing regions

Outstanding brown patch resistance

Aggressive establishment

Excellent growing season density

Turfgrass Quality

Turfgrass quality ratings of tall fescue cultivars 1/ grown in location performance index (LPI) group 2019 data. Turfgrass quality ratings 1-9; 9=ideal turf
