

SURESHOT ALFALFA

Always Hit the Mark with Sureshot

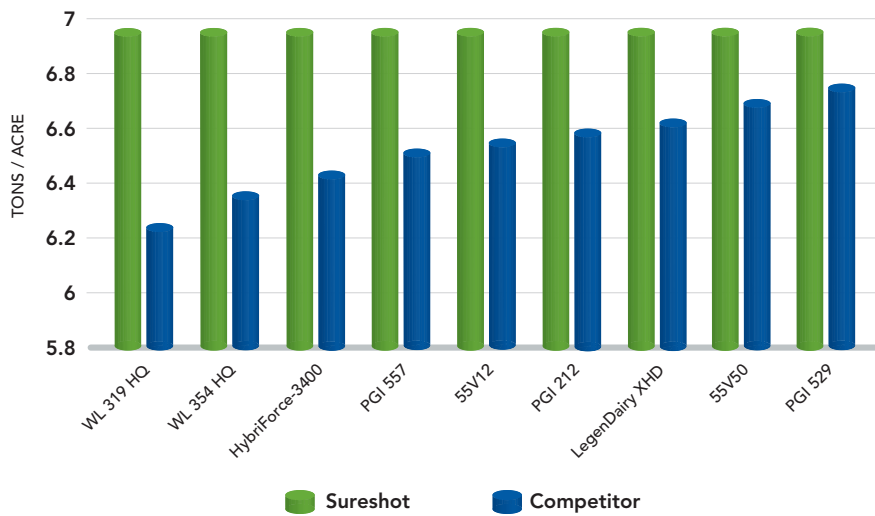

Guarantee faster recovery, persistence and forage yield with Sureshot alfalfa. This fall dormancy class 5 variety is well suited for aggressive management systems such as dry hay or haylage. Its medium to early maturity rapidly emerges and recovers aggressively after cutting. Complimented by outstanding winterhardness, Sureshot will persist throughout the growing season providing full-season productivity.

Sureshot is a highly productive multifoliate bred for improved forage quality. Noted for its increased Relative Feed Quality (RFQ), you can be confident Sureshot will produce more milk per acre. It contains a comprehensive disease package, including Aphanomyces Race 1 and Race 2 resistance; plus, insect and nematode resistances guarantee your seed investment. Always be on target with your alfalfa selection, hit the mark with Sureshot!

Forage Quality

ENTRY	CP	ADF	NDF	RFV	NDFD	RFQ	MILK/ TON	YIELD	MILK/ ACRE
Sureshot	22.0	31.4	37.7	160	49.5	172	3.012	8.7	26,412
Pioneer 55V12	22.0	31.8	38.2	156	48.4	167	2,981	8.1	24,179
WL 354HQ	22.8	31.0	37.3	162	48.5	171	2,992	8.4	25,170

Dry Matter Yield

Key Characteristics

- Outstanding forage yield
- Excellent winterhardness
- Superior persistence
- High milk per acre
- Multifoliate leaf expression

Winter Survival & Adaptation
