

Tripper Maxx

HIGH PERFORMANCE ANNUAL FORAGE MIXTURE

FEATURES

Superior forage yield

Excellent forage quality

Good nurse crop

Rapid establishment and forage production

Strong disease resistance

Forages

Tripper Maxx is an elite forage blend of 50% Stockade Brand Peas and 50% Elevator Spring Triticale that delivers the benefits of a forage legume and cereal in one product. Its superior forage characteristics provide abundant yields and high quality forage throughout the northern United States and Canada.

Elevator Triticale

- Semi beardless triticale* for improved palatability
- Excellent disease resistance
- Superior standability

Stockade Brand Peas

- Excellent spring vigour and high yield potential
- Increased vine ratio delivers higher forage quality
- Excellent disease resistance
- Small black seeded forage pea for increased plant populations

Agronomic Recommendations

- **Seedbed** – A firm, well prepared seedbed improves seed-to-soil contact, increasing the likelihood of establishing a productive stand
- **Seeding Rate** – 120 lb/acre with underseeding or 150 lb/acre without underseeding
- **Seeding Depth** – 1/2 to 1 inch deep with rolling or packing to improve emergence
- **Seeding Date** – Seed as early as soil conditions allow in spring
- **Fertility** – Fertilize according to soil tests, and keep a balanced micronutrient program
- **Harvest Timing** – Tripper Maxx is ready to harvest in 55 to 70 days, or early boot stage

DISTINCT BY DESIGN

At BrettYoung we are proud of the strategic partnerships we have with world-class organizations through which we source leading technologies and genetics. This allows us to bring **distinct** market choices that deliver you performance and value. **By design**, our success will always be rooted within your success. Like you, we are independent, resolute, and **Distinct By Design**.

Canada's Largest Independent Seed Company
