Ratibida columnifera

Coneflower
Ratibida spp.

Arrowleaf Balsamroot
Balsamorhiza sagittata

Seed Mix Information

- To seed evenly, mix the wildflower seeds with sand
 - Four parts sand to one part seed
- After seeding, lightly rake and water the seedbed with a fine spray
- Stock blend available for purchase in 1 LB increments
- Blend composed of 10 – 15 wildflower species native to western Canada and the USA
- Grows easily in full sun to part shade and likes well-drained soils
- Packaged in 1 LB bags which is suitable to cover 4000 ft²
- In the fall, mow the wildflower mix at a tall height to help reseed the plant stand naturally
