

DAYBREAK

TALL FESCUE

Illuminating Turf Quality & Disease Resistance

Daybreak's dynamic performance sets a new standard in turfgrass quality across various regions. It was a shining standout in the Northeast, Transition Zone and Southeast where quality ratings achieved top-of-the-page performance.

Daybreak's disease resistance package is second to none. It has excellent resistance to gray leafspot, brown patch, red thread and snow mold.

Daybreak exhibits an outstanding dark green color, fine leaf texture and class-leading density. It's sure to turn heads, as its percent living green cover, ground cover and full canopy rapidly develops in the spring, is a standout in the summer and persists into the fall months. Complimented by competitive tolerance to traffic, Daybreak delivers a durable turf option with premiere turf quality.

Key Features

- Premium turf quality
- Wide adaptability to all regions
- Excellent resistance to gray leafspot
- Leading brown patch resistance
- Superior color, density, and leaf texture

Turfgrass Quality Ratings

Rutgers gray leaf spot, 2018 Avg.

LSD @ 5% = 1.4

CV = 17.5
