

Blend 4440

THE PREMIER CERTIFIED ALFALFA BLEND IN THE
CANADIAN PRAIRIES

FEATURES

Certified alfalfa blend

Widely adapted

High yield potential

Premium varieties

Persistent in adverse conditions

Excellent winterhardiness

Forages

Blend 4440 is a mixture of premium, certified alfalfas specifically developed to combine the strengths of our best varieties: high yields, superior winterhardiness, salt tolerance, multifoliolate expression, and unique rooting habits such as branch root, sunken crown and creeping root characteristics. The unique strengths of this blend offer suitability to a wide range of growing conditions. Demand the best, insist on Blend 4440 Alfalfa.

Blend Composition

Foothold Alfalfa (Creeping Root)	Low dormancy with exceptional winterhardiness and improved disease resistance. Oversized, durable crown is more tolerant of field traffic.
Stronghold (Tap Root)	Low-to-mid dormancy that delivers excellent winter survival, good quality, and persistence.
Reload (Branch Root)	Root system that is up to 80% branched for optimum performance in poorly drained soils. Branch root has demonstrated improved durability and persistence.
Ace (Tap Root)	Exceptional forage yield and quality. Responds well to aggressive cutting schedules and regrows rapidly throughout the growing season.
Dynamo (Multifoliolate)	High multifoliolate expression resulting in higher, softer-leaved feed value.
Barricade II (Salt Tolerant Tap Root)	Salt tolerant tap root has an outstanding disease package with high yields and is more persistent in salinity.

DISTINCT BY DESIGN

At BrettYoung we are proud of the strategic partnerships we have with world-class organizations through which we source leading technologies and genetics. This allows us to bring **distinct** market choices that deliver you performance and value. **By design**, our success will always be rooted within your success. Like you, we are independent, resolute, and **Distinct By Design**.

Canada's Largest Independent Seed Company
