# Forages

Catapult is an aggressive growing, early-to-mid maturity timothy. A semi-erect growth habit, medium to dark green color, and taller plant height are characteristic of this variety. Bred for spring vigor

and summer regrowth, Catapult comes out of the ground fast with rapid recovery after cutting. Its superior stand persistence lasts all-season and continues year after year. Ideal companion for legumes, other forage grasses, or as a pure stand.

## Yield Performance

3-Year Dry Matter Yield (tonnes/acre), Lexington, KY

Timothy Forage Yield (tonnes/acre), Cornell, 2016

## Stand Persistence (%)

Timothy Forage Persistence, Cornell, 2016

## Forage Quality

Cornell Spring Forage Quality, 2015

### DISTINCT BY DESIGN

At BrettYoung we are proud of the strategic partnerships we have with world-class organizations through which we source leading technologies and genetics. This allows us to bring **distinct** market choices that deliver you performance and value. **By design**, our success will always be rooted within your success. Like you, we are independent, resolute, and **Distinct By Design**.

Canada's Largest Independent Seed Company
