# Forages

Wildcat is a high yielding double-cut red clover variety with high forage quality and good disease resistance. Wildcat exhibits excellent vigor, a semi-erect growth habit and very good stand persistence.

## Yield Performance

*\*Yield information was taken from available public small replicated trials across the United States and Canada.*

### DISTINCT BY DESIGN

At BrettYoung we are proud of the strategic partnerships we have with world-class organizations through which we source leading technologies and genetics. This allows us to bring **distinct** market choices that deliver you performance and value. **By design**, our success will always be rooted within your success. Like you, we are independent, resolute, and **Distinct By Design**.

**Canada's Largest Independent Seed Company**
